**SWORN STATEMENT AND CERTIFICATION OF FUEL GAS  
PIPING INSTALLATION AND TESTING**

I hereby certify that I have performed the required pressure and/or leak tests on the fuel gas piping system related to the mechanical permit identified below. I also certify that the test was performed successfully and that there are no leaks in any part of the system. I further certify that the piping system was installed and tested in accordance with all applicable provisions of the *Michigan Residential Code (MRC) 2009 edition* including but not limited to the provisions of Chapter 24 "FUEL GAS."

I further understand that the entire fuel gas piping system is required to have a visual inspection performed by the Mechanical Inspector in addition to the testing requirements of Chapter 24. If, during that visual inspection, or at any time, the Mechanical Inspector has reason to believe that the system should be tested, he may require an additional test be performed in which he witnesses same.

I agree to indemnify and hold harmless the Township of Addison, its employees, elected and appointed officials and agents to the fullest extent permitted by law, from and against all losses, costs, expenses (including attorney fees), damages, liabilities from claims arising out of bodily injury, sickness, disease or property damage sustained as a result of certifying the foregoing test results.
